

The Smart Money company is glad to introduce
its new partner —

THE VISOTRONIX GAMBLING PLATFORM

About the brand

The background of Visotronix is 15 years of work with the best gambling houses in South Africa and the USA.

The brand has become a leader in the South African market and has provided a tough competition to world-famous companies.

Entertaining content

Visotronix gambling terminals have:

- clear graphics;
- live sound;
- a unique range of games that have no analogues.

Visotronix offers:

- slots;
- video poker;
- board and card games.

Manufacturers:

- IGT;
- Microgaming;
- Playtech;
- Aristocrat;
- Williams;
- Mega Jack;
- Igrosoft;
- Novomatic.

Security

- The system is based on the Linux OS
- Visotronix protects deposits and personal information of customers
- The system uses multi-level data encryption
- The access is possible only after players enter the PIN code that they got by SMS
- The response time of the SMS password is limited
- If necessary, operators can turn off all terminals

Advantages of the platform

- A wide range of popular games
- Installation of all games on one terminal
- A large selection of individual settings
- Ability to change the configuration of gaming terminals
- Daily report via SMS or e-mail messages
- Players are provided with an ability to change the value of coins
- Financial reporting in real-time mode
- Fixation of all cash desk operations
- Mystery Jackpot on all Visotronix terminals
- Automatic data restoration in case of server failures
- Round-the-clock technical support
- Withdrawal of funds through the Smart Money system
